Good Afternoon Mr. Veach:

The court is in receipt of your September 30, 2016 letter concerning this matter. The court appreciates your in-depth assessment and analysis.

With all due respect to your unimpeachable expertise in this area, the court is concerned with the propriety of acting on the recommendation and/or advice of a non-party. If you believe you have standing as a "Federal taxpayer," it is recommended that you move to intervene [with supporting case law]. Or, you should consider taking a formal "amicus" posture.

For the benefit of the parties to this action, the court is directing the Liquidator to upload to the official website Mr. Veach's September 30th correspondence with exhibits.

Thank you all.

Justice Carol Robinson Edmead
